

DisplayFusion Command Line Tool

 DISPLAYFUSION

 BINARYFORTRESS

DisplayFusion Command Line Tool (displayfusioncommand.exe)

Using DisplayFusionCommand.exe (version 3.3+) you can control DisplayFusion from an external program or command prompt. DisplayFusionCommand.exe is located in the DisplayFusion installation folder (C:\Program Files\DisplayFusion) by default. Syntax and examples are below.

-CloseAll

Closes all DisplayFusion instances with no prompts.

-WallpaperLoadProfile "profile name"

Loads the Wallpaper Profile named in the quotes. (v3.4.0+)

-WallpaperNextImage

Loads the next random Wallpaper image, if random images are enabled for any of the monitors. (v3.4.0+)

-WallpaperSlideshowPause

Pauses wallpaper changes, if random images are enabled for any of the monitors. (v10.1.2+)

-WallpaperSlideshowResume

Resumes wallpaper changes when paused, if random images are enabled for any of the monitors. (v10.1.2+)

-WallpaperSlideshowToggle

Toggles wallpaper changes, if random images are enabled for any of the monitors. (v10.1.2+)

-WallpaperApply

Re-applies the current Wallpaper Profile. (v8.0+)

-WallpaperFeatureEnable

Enables the DisplayFusion Desktop Wallpaper feature. (v10.1.2+)

-WallpaperFeatureDisable

Disables the DisplayFusion Desktop Wallpaper feature. The wallpaper will be changed to a solid black background. (v10.1.2+)

-WallpaperFeatureToggle

Enables/disables the DisplayFusion Desktop Wallpaper feature. When disabling, the wallpaper will be changed to a solid black background. (v10.1.2+)

-WallpaperAnimationsToggle

Pauses/resumes animated wallpaper sources (My Videos, Website). (v8.0+)

-applicationhooksload

Forces DisplayFusion to load the global application hooks. (v3.4.0+)

-applicationhooksunload

Forces DisplayFusion to unload the global application hooks. (v3.4.0+)

-windowwallpaper

Opens the DisplayFusion Wallpaper window. (v3.4.0+)

-windowsettings

Opens the DisplayFusion Settings window. (v3.4.0+)

-windowmonitorconfig

Opens the DisplayFusion Monitor Configuration window. (v3.4.0+)

-windowscreensaversettings

Opens the DisplayFusion Screen Saver Settings window. (v3.4.0+)

-monitorloadprofile "profile name"

Loads the Monitor Profile named in the quotes. (v3.4.1+)

-functionrun "hotkey name"

Runs the specified DisplayFusion HotKey. (v4.0+)

-desktopiconsave "profile name"

Saves the current Desktop Icon Layout as a profile. Specifying the name of an existing profile will prompt to overwrite. (v4.0+)

-desktopiconload "profile name"

Loads the specified Desktop Icon Layout Profile. (v4.0+)

-windowpositionprofilesave "profile name"

Saves the currently opened windows as a Window Position Profile Profile. Specifying the name of an existing profile will prompt to overwrite. (v9.2+)

-windowpositionprofileload "profile name"

Loads the specified Window Position Profile Profile. (v9.2+)

-settingsbackup "file path"

Saves the current DisplayFusion Settings to a .reg file. If you don't specify a file name, the backup will be created in the default location of %USERPROFILE%\Documents\DisplayFusion Backups. (v5.1+)

Examples:

```
DisplayFusionCommand.exe -closeall
```

- Closes all DisplayFusion instances.

```
DisplayFusionCommand.exe -wallpaperloadprofile "Horse Pictures"
```

- Loads a pre-configured Wallpaper profile named "Horse Pictures"

```
DisplayFusionCommand.exe -wallpaperloadprofile "Horse Pictures" -wallpapernextimage
```

- Loads a Wallpaper profile, then loads the next random image

```
DisplayFusionCommand.exe -functionrun "Start Screen Saver"
```

- Runs the built-in DisplayFusion Function that starts the Screen Saver

```
DisplayFusionCommand.exe -settingsbackup "C:\Backups\DisplayFusionBackup.reg"
```

- Saves the current DisplayFusion Settings to C:\Backups\DisplayFusionBackup.reg

About DisplayFusion

DisplayFusion gives users power and precision over their multi-monitor setup, with automation and customization options to create the perfect displays, every time.
