Google Images Wallpaper Source

In Browser

- In your web browser, navigate to <https://console.developers.google.com/projectselector/home/dashboard>.
- After logging in with your Google Account, click the "Create Project" link on the top-right of the page.

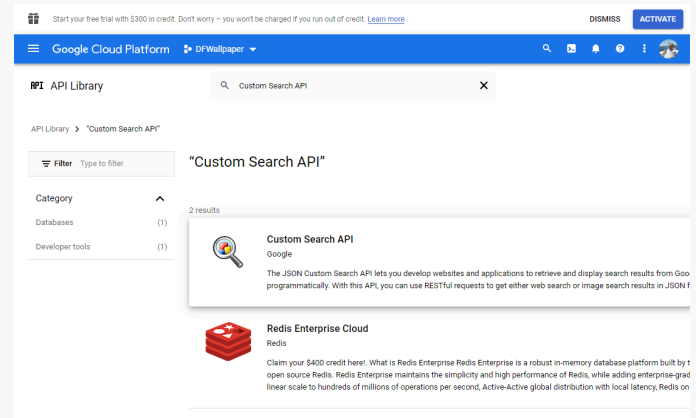

- You'll be taken to the "Create Project" page. Give the project a name, then click the Create button.

- The newly-created project will populate the screen. If not, use the "Select a project" dropdown to choose your new project.
- In the left pane, navigate to APIs & Services > Library.

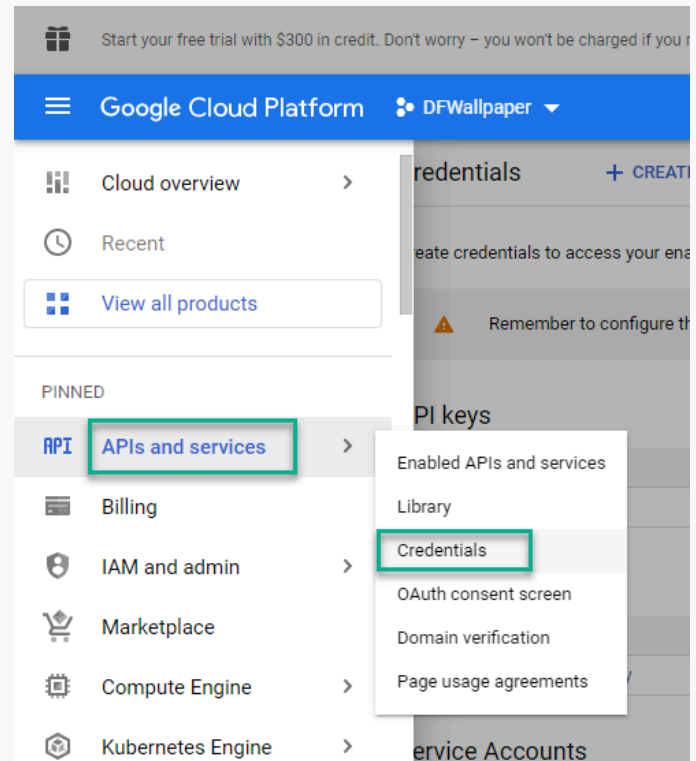

- Use the search box to search for "Custom Search API" and then select it.

- Click the "Enable" button.

- Click the menu on the top left and navigate to APIs & Services > Credentials.

- Click the "Create Credentials" link and choose "API Key."

- Click the copy button on the "API key created" window.

In DisplayFusion

- Right-click the DisplayFusion tray icon and click "Desktop Wallpaper." You can also access this via the Options tab in Settings.

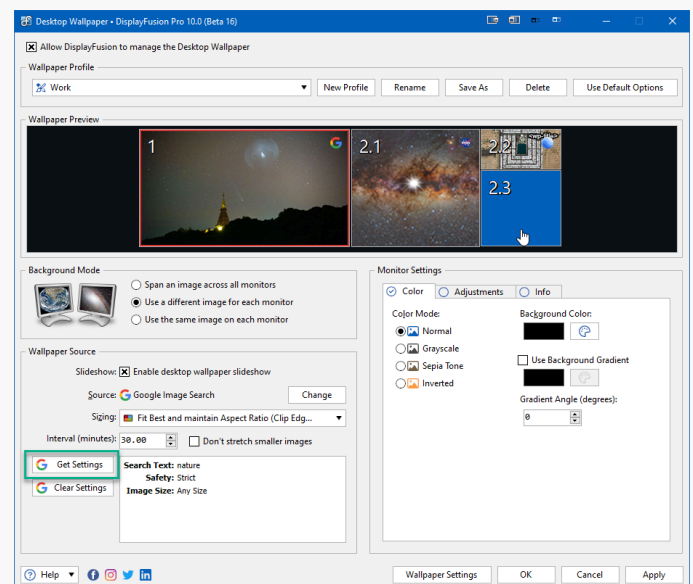

- Click the "Change" button in the "Wallpaper Source" area.

- Click the "Google Image Search" source option.

- Click "Get Settings."

- Paste the Google Project API Key into the "API Key" text field.

- Specify the Search Text to pull in specific images.
- Click the "Use These Settings" button.

About DisplayFusion

DisplayFusion gives users power and precision over their multi-monitor setup, with automation and customization options to create the perfect displays, every time.
